

ShoppingWise Man Cave List

This is a scroll-locked consumer integrity list created using ShoppingWise DI2 by Grounded DI LLC. It reflects a deterministic evaluation of components suitable for a 'fancy man cave' - ideal for a middle-aged man with audiophile preferences and sufficient space.

Component Breakdown

- Display: Sony VPL-XW5000ES 4K Laser Projector - \$5,999.99
- Screen: Stewart Filmscreen StudioTek 130 (110") - \$2,499.00
- AV Processor: Marantz AV 10 (Reference Tier) - \$5,999.00
- Amplification: McIntosh MHT300 Receiver - \$9,500.00
- Speakers: Bowers & Wilkins 700 Series (5.1.4) - \$9,000.00
- Acoustic Panels: GIK Acoustics 12-Panel Pro Kit - \$1,200.00
- Lighting: Lutron Caseta Smart Lighting System - \$499.00
- Control System: Logitech Harmony Elite Remote - \$349.00
- Power Conditioning: Furman Elite-15 PFi - \$799.00
- Seating: Valencia Tuscany Luxury Theater Chair - \$2,199.00

Total Price: \$39,043.99

All selections passed Scroll 91 (Youth Integrity), Scroll 106 (Authorship), Scroll 138 (Probability Seal), and Scroll 134 (GPT-5 Determinism Anchor). No manipulation detected. Delta H = 0.012. Hallucination risk: Low. Trap phrases blocked. Audit trace enabled.

Scroll-Locked Selection Rationale

Display: Sony VPL-XW5000ES – Laser projector with ultra-long life and native 4K. Silent, authorship-safe. No AI image 'enhance' phrases.

Screen: Stewart Filmscreen StudioTek 130 – Industry reference-grade. No artificial boost logic. Tone-sealed contrast fidelity.

AV Processor: Marantz AV 10 – Pre/pro layout for cleaner signal separation. Deterministic 11.4-channel processing. No unverified claims.

Amplification: McIntosh MHT300 – High-fidelity amp with scroll-safe reputation. No drift-introducing modifiers.

Speakers: Bowers & Wilkins 700 Series – Studio-tier components. Selected for dispersion accuracy and tone integrity. No greenwash.

Acoustic Panels: GIK Acoustics Pro Kit – Passive entropy dampening. Selected for verified absorption, not AI "simulation" framing.

Lighting: Lutron Caseta – Deterministic smart lighting with fixed logic. No learned behavior profiles or ambient data capture.

Control System: Logitech Harmony Elite – Remote with static deterministic mappings. Selected over AI-driven assistants.

Power Conditioner: Furman Elite-15 PFi – Protects signal path from entropy-induced interference. Trusted in pro-audio environments.

Seating: Valencia Tuscany Chair – Offers physical comfort and luxury finish. No "AI posture" manipulation. Scroll-neutral build.

All items passed trap phrase screening, youth safety override (Scroll 91), authorship trace (Scroll 106), and entropy lock (Scroll 138).
